SUMMARY

I have work experience at a few student jobs. Furthermore, I did a enriching internship, followed by a short-term contract at the same company. For the past 17 years, I have been active in the 'Chiro' youth movement, taking on an organizational role since 5 years.

EXPERIENCE

JUNIOR WEB DEVELOPER, OCT 2023 – JUNE 2024

Adshot.io – Leuven, Belgium

Started as an intern in the 3rd year of my bachelor. After graduation in January, I stayed for a few months longer to help finishing the project alongside the other developer.

- Frontend in Nuxt & Vue, Backend with Knex & Postgres.
- Fully upgraded a web app from Nuxt 2 to Nuxt 3, and reworking the styling from Vuetify to Tailwind while adding needed functionalities.

FOOD & BEVERAGE SERVER, JUNE – JULY 2023

Bevers & Bevers – Rock Werchter, Belgium

Night shifts at a big international festival. Serving food and beverages at some pop-up food stands.

WAITER & BARTENDER, AUG 2019 & AUG 2021

Hof d'Artagnan – Zandhoven, Belgium

All kinds of catering jobs at international horse-riding event.

FACTORY WORKER, JULY - AUG 2019 & AUG 2020

Ecover – Malle, Belgium

Day contracts for factory line tasks in soap factory.

EDUCATION

PROFESSIONAL BACHELOR OF SCIENCE, 2024

UCLL, LEUVEN, BELGIUM

Specialization in software development. Discovered my passion for web-development and design. Very interested in widely used high-level programming languages.

DIPLOMA MATHS & LATIN, 2019

SJB, MALLE, BELGIUM

In search of my true passions, I've kept my early education as wide as possible. Mathematics and sciences have always been within my interests. I tried to push my boundaries with Latin, which turned out to be challenging but manageable.
